

# California Department of Fish and Game

## Deer Management Program

### 2011 Deer Zone Information

Wildlife Branch  
1812 9<sup>th</sup> Street Sacramento, CA 95811

---

#### General Deer Hunting Information For **ZONE B-5** (No Additional Hunts Scheduled)

#### **GENERAL INFORMATION FOR DEER HUNT ZONE**

This information sheet has been prepared to assist deer hunters applying for, or planning to hunt in, Zone B-5 located in portions of Glenn, Mendocino, Shasta, Tehama and Trinity counties. The following information should be useful to hunters for archery and general seasons as well as any "additional hunts" within this geographic area. For more specific information or additional questions regarding this area, contact the following Department office(s):

**Northern Region Office (Region 1), 601 Locust Street, Redding, CA 96001 (530-225-2300)**  
encompassing Del Norte, Humboldt, Lassen, Mendocino, Modoc, Shasta, Siskiyou, Tehama and Trinity counties; or

**North Central Region Office (Region 2), 1701 Nimbus Road, Rancho Cordova, CA 95670 (916-358-2900)** encompassing Alpine, Amador, Butte, Calaveras, Colusa, El Dorado, Glenn, Lake, Nevada, Placer, Plumas, northeastern Sacramento, eastern San Joaquin, Sierra, Sutter, northern Yolo and Yuba counties.

#### **REGULATIONS**

Laws and regulations are designed to conserve wildlife and to provide for an equitable distribution of game mammals. The hunter who knows the laws and regulations can enjoy the hunting experience more. All hunters should read and be familiar with the current hunting regulations available online at:

<http://www.fgc.ca.gov/regulations/current/mammalregs.asp>

Successful hunters are reminded to immediately fill out both portions of the tag and permanently mark the date of kill; record the appropriate "B" zone (Zone B-1, B-2, B-3, B-4, B-5 or B-6) where the deer was killed; attach the tag to the antlers, or ear if antlerless; have the tag validated and countersigned; and return the completed report card portion to the Department within 30 days of taking a deer.

Also remember you must obtain, and have in your possession written permission to hunt on private property. Hunter trespass laws are strictly enforced.

#### **OBTAINING DEER TAGS**

##### **NEW for 2011 - Automated License Data System (ALDS)**

Beginning in late 2010, the Department began implementation of the new Automated License Data System (ALDS). Under this computer data system, all licenses, stamps and tags are applied for, and issued through online Point-of-Sale terminals (IPOS) located at various Department license offices, over 1,400 license agents statewide or online at <http://www.dfg.ca.gov/licensing/>. Under ALDS much less paperwork is required to apply for, and receive tags. In addition, licenses, tags and entry into the Big Game Drawing can all be accomplished with one trip to a license agent. Once your personal

information is entered and stored in the database, the database controls and tracks what you have applied for, or been issued, as well as preference points.

Other than the way you apply for and receive licenses and tags, the primary difference you will notice is in the form that the license or tag comes. Instead of the old style license or postcard type deer tag, they will all come out of the IPOS terminal in the form of a long receipt. If successful at harvesting a deer, filling out the tag and report card portion, validation and report card return requirements remain unchanged. For more specific information on ALDS, application procedures and zone/hunt information, check out the 2011 California Big Game Hunting Digest available by May at most Department offices and license agents or online at: <http://www.dfg.ca.gov/publications/digest/>

For deer tag distribution purposes, zones and hunts are classified based upon the date in which the zone or hunt tag quota is filled in the prior year. The three tag categories include:

- 1) "**Premium**" zone/hunt tags are only issued through the Big Game Drawing using a First-Deer Tag Drawing Application, except that junior hunters may use their Second-Deer Tag Drawing Application to apply for Apprentice (J) Hunts. Hunters will lose all accumulated deer preference points if drawn for their first choice in the Big Game Drawing.;
- 2) "**Restricted**" zone/hunt tags are available upon application with a First-Deer Tag, or after August 1 when using a Second-Deer Tag.;
- 3) "**Un-Restricted**" zone/hunt tags are available at any time using either a First- or Second-Deer Tag.

For Zone B-5 and associated hunts within the zone, the tag categories are as follows:

- 1) **Premium** Deer Hunts – None
- 2) **Restricted** Deer Hunts – None
- 3) **Un-Restricted** Deer Hunts – **B Zones and Archery Only (AO)**

The 2011 deer hunting regulations specific to Zone B-5 (archery and general season) and any additional hunts are listed at the end of this sheet. To hunt deer in Zone B-5, hunters must possess a B Zones deer tag which is valid in any B Zone during the archery or general season using the appropriate method of take. Additionally, Archery Only Tags (AO Tags) are valid during the Zone B-5 archery or general season using archery equipment only.

Any additional deer hunts in Zone B-5 are listed in the Additional Deer Hunts section near the end of this sheet. Typically, tags for additional deer hunts are in high demand and distributed through the Department's Big Game Drawing held in June. To receive tags for many of these hunts, hunters must plan ahead and apply by the **June 2, 2011 deadline**. Information regarding application procedures and restrictions, ALDS, zone and hunt seasons, prior year drawing and hunt statistics are contained in the 2011 Big Game Hunting Digest available at most Department offices, license agents and online at: <http://www.dfg.ca.gov/publications/digest/>

## **LAND OWNERSHIP/PUBLIC LAND OPPORTUNITIES**

Zone B-5 contains a mixture of both public and private lands. Remember you must obtain and have in your possession written permission to hunt on private property. Hunter trespass laws are strictly enforced. Public lands within the zone are administered by the Mendocino and Shasta-Trinity National Forests (USFS) and the Bureau of Land Management (BLM). For information regarding these lands contact the following:

### **USFS Offices:**

Mendocino National Forest, 825 N. Humboldt Avenue, Willows, CA 95988 (530-934-3316)  
Shasta-Trinity National Forest, 3644 Avtech Parkway, Redding, CA 96002 (530-226-2500)

### **BLM Offices:**

Redding Field Office, 355 Hemsted Drive, Redding, California 96002 (530-224-2100)

Wilderness lands have been established within the Mendocino and Shasta-Trinity National Forests. The

Yolla Bolly Middle Eel Wilderness Area is located within Zone B-5 and is accessible by hiking and pack stock. Public use of the wilderness is regulated by permit. Information on wilderness area restrictions and Wilderness Permits may be obtained by contacting the Mendocino or Shasta-Trinity National Forest.

In Zone B-5 and other zones throughout California, additional deer hunting opportunities may exist on private property licensed through the Department's Private Lands Management Program (PLM). For more information on the PLM and to obtain a list of participating ranches, go to the following link:

<http://www.dfg.ca.gov/wildlife/hunting/plm.html>

## **MAPS**

For general maps detailing individual zone or additional deer hunt boundaries, go to the following link:

<http://www.dfg.ca.gov/wildlife/hunting/deer/zonemapsinfo.html>

The most comprehensive map of the area is the Shasta-Trinity National Forest map. USFS maps are available locally at most USFS offices; by contacting the USFS Pacific Southwest Regional Office at: 1323 Club Drive, Vallejo, CA 94592 (707-562-8737); or ordered by phone (406-329-3024), fax (406-329-3030), mail at USDA Forest Service, National Forest Store, P.O. Box 8268, Missoula, MT 59807, or on-line at <http://www.nationalforeststore.com>.

BLM surface management maps may also be useful. However, because Zone B-5 covers such a large area, several maps are needed to depict it entirely. BLM surface management maps for Zone B-5 include the Garberville, Red Bluff, Redding, and Willows maps. You can purchase these maps at BLM district offices or you can contact the BLM at 2800 Cottage Way, Suite W-1834, Sacramento, CA 95825 (916-978-4400).

U.S. Geological Survey (USGS) topographic maps, are very helpful, especially for topographic features that are not displayed on USFS or BLM maps. USGS maps may be available from sporting goods, backpacking or engineering stores or you can contact the USGS directly at: Rocky Mountain Mapping Center, Branch of Information Services, Box 25286, Denver, CO 80225 (888-ASK-USGS).

## **ACCESS/MAJOR ROADS**

Although there is a lot of private land in Zone B-5, there are extensive tracts of public lands with excellent access. Primary roadways in Zone B-5 are Interstate 5 (eastern B-5), State Highway 299 (northern B-5), and State Highway 36 (east-west B-5). Many County, USFS, and BLM roads branch off of these primary roadways providing access to public lands.

## **WEATHER CONDITIONS/TRAVEL TIPS**

The weather in this region is highly variable so BE PREPARED. The weather is usually hot to mild, but early storms are not uncommon. Snow fall will be a rare occurrence with these storms but heavy rains can make many roads very difficult, if not impossible, to travel. You should be prepared with appropriate clothing and equipment for a variety of weather conditions.

Zone B-5 covers a large geographic area. The terrain can be very steep and rugged and vegetation can be extremely dense. As you should do in all remote areas, hunters are urged to bring a shovel, a good spare tire, extra water, etc. Use care when operating any vehicle off-road and check with the BLM or USFS for rules and regulations regarding vehicle and travel restrictions in the area. Horses can be useful in some portions of B-5. However, remember that it may be necessary to carry supplemental horse feed into the back country. Contact the local USFS and/or BLM office for more information regarding forage conditions for livestock.

## **CAMPING**

There are numerous designated campgrounds within Zone B-5. The facilities available at these campgrounds vary from primitive campsites to campsites with running water and showers. Most campgrounds are clearly marked on USFS and BLM maps. Camping outside of designated campgrounds is usually permitted on BLM and USFS lands. However, during fire season special regulations may apply and it will be necessary to obtain a fire permit from the USFS or BLM. You can also check with the California Department of Forestry and Fire Protection office for rules in specific areas.

Please, DO NOT camp or hunt for prolonged periods near water sources important to wildlife and livestock. Remaining for over 30 minutes and within 200 yards of an artificial water source including guzzlers or horizontal wells on public lands within California is a Fish and Game violation (Title 14, Section 730). You can pack water, wildlife can't.

## **HARVEST INFORMATION**

Information on deer harvest for this area is available in tables contained in the annual Deer Kill Reports available on-line at: <http://www.dfg.ca.gov/wildlife/hunting/deer/deerhunt.html> The most useful tables for the purposes of planning or applying for hunts in this area are Tables 1b (Harvest and Success Information), 2a (Antler Class Information) and 10b (Drawing Statistics).

## **HERD CONDITIONS AND HABITATS**

The deer population in Zone B-5 is considered stable to slightly declining, yet considerably below levels seen in the late 1960's and 1970's. As with most deer herds in California and other western states, the long-term population trend has been on a steady decline since the 1960's and 1970's. These long-term declines have been due to land management practices that have precluded fire, resulting in changes toward more mature and less diverse habitats, and reduced quality and quantity of deer habitats. Short-term fluctuations in deer populations are usually attributed to weather events that affect forage production.

The subspecies of deer inhabiting Zone B-5 is the Columbian black-tailed deer. Deer in Zone B-5 are generally considered resident deer. That is, their movement is up and down the slopes, they do not make long seasonal migrations. The deer in this area generally move to higher elevations in late spring and will remain there until the first heavy fall storms force them down below the snow line. This downward movement often occurs during the hunting season, so hunters should be prepared to move to lower areas later in the season after stormy weather.

The vegetation is highly varied throughout Zone B-5 ranging from mixed chaparral, oak-woodland, hardwood, and hardwood-conifer to dense conifer habitats. Generally speaking, deer populations in this area respond favorably to vegetation disturbances that enhance brush species (wildfire and timber harvesting). Riparian areas (areas along watercourses), recently burned areas or clear cuts that have re-sprouted with brush are good areas to hunt. Areas where oaks are producing acorns may also attract deer. Typically, lower densities of deer are observed in the more densely forested areas or in older, more decadent brushlands.

## **HUNTING TIPS AND WHERE TO LOOK FOR DEER**

Successful hunters often spend a considerable amount of time scouting pre-season, locating individual or groups of deer, recently used deer trails, and feeding and bedding areas. You may not see many deer from the roads in this area and generally the more successful hunters do more hiking to locate deer. Binoculars and/or spotting scopes can be very helpful for locating and identifying deer at greater distances. In general, attempt to hunt areas that are away from other activities such as concentrations of hunters, vehicles, and/or livestock.

The deer in this area generally remain on the summer range around the Yolla Bolly Middle Eel Wilderness Area until the first heavy fall storms force them down below the snow line to the east. Therefore, in a "normal" year, the best hunting is in the high country, or summer range, among brush stands such as manzanita, snowbrush, or Sierra chinkapin.

Historically, some of the more popular and productive deer hunting areas in Zone B-5 include: 3 Prong, Ball Rock, Berry Ridge, Big Stump, Black Rock Mountain, Buck Rock, Cold Springs, Eagle Peak, East Low Gap, Fish Creek, Forks Ridge, Hammerhorn Mountain, Ides Cove, Knob Peak, Low Gap, Onion Springs, Pattymocus, Pony Ridge, Raglin Ridge, Rat Trap Gap, Red Mountain, Riley Ridge, Rocky Cabin, South Ridge, Sugar Foot, Tomhead Mountain and Whiskey Saddle.

For additional information about deer hunting in California, see the Department's publication "Guide To Hunting Deer In California" at the following web site:

<http://www.dfg.ca.gov/wildlife/hunting/deer/docs/deerguide.pdf>

## **ADDITIONAL DEER HUNTS**

In 2011, there are no additional deer hunts scheduled in Zone B-5.

## **2011 ZONE AND ADDITIONAL HUNT SPECIFIC REGULATIONS**

### **§ 360. Deer.**

Except as otherwise provided in this Title 14, deer may be taken only as follows:

(a) A, B, C, and D Zone Hunts.

(2) Zone B.

(A) Area: Shall include all of Zones B-1, B-2, B-3, B-4, B-5 and B-6 (see subsections 360(a)(2)(A) 1-6).

5. Zone B-5.

In those portions of Glenn, Mendocino, Shasta, Tehama and Trinity counties within a line beginning at the intersection of Highway 299 and Interstate 5 in Redding; south along Interstate 5 to the Black Butte Lake- Newville Road near Orland; west and north on the Black Butte Lake-Newville Road to the Round Valley-Paskenta Road; west on the Round Valley-Paskenta Road to the Pacific Crest Road (U.S. Forest Service Road M-2) near Government Flat; north on the Pacific Crest Road to the Summit Trailhead at Green Springs; north along Summit Trail to Soldier Ridge Trail; south and west along Soldier Ridge Trail to Minnie Creek; north and west on Minnie Creek to Balm of Gilead Creek; west on Balm of Gilead Creek to the Middle Fork of the Eel River; west on the Middle Fork of the Eel River to the North Fork of the Middle Fork of the Eel River; north on the North Fork of the Middle Fork of the Eel River to the Four Corners Rock-Washington Rock Trail; north and west on the Four Corners Rock-Washington Rock Trail to the boundary of the Yolla Bolly-Middle Eel Wilderness Area; north along the boundary of the Yolla Bolly-Middle Eel Wilderness Area to the Tehama-Trinity county line; north on the Tehama-Trinity county line to Forest Service Arterial Road 41 at Stuart Gap; north on Forest Service Arterial Road 41 to Highway 36; west on Highway 36 (200 yards) to the Browns Creek-Harrison Gulch Road; north on the Browns Creek-Harrison Gulch Road to the Shasta-Trinity county line; northeast along the Shasta-Trinity county line to Mud Springs, where the Bully Choop Mountain Road joins the Shasta-Trinity county line; north on the Bully Choop Mountain Road to Highway 299 at Buckhorn Summit and the Shasta-Trinity county line; east on Highway 299 to Interstate 5 in Redding.

(B) Season: The seasons for the B Zone shall be those specified for the areas described as B-1, B-2, B-3, B-4, B-5 and B-6 (see subsections 360(a)(2)(B)1-6).

5. Zone B-5.

The season in Zone B-5 shall open on the third Saturday in September and extend for 37 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 35,000. Zone B tags are valid in Zones B-1, B-2, B-3, B-4, B-5 and B-6

### **§ 361. Archery Deer Hunting.**

(a) Archery Hunting With General Deer Zone Tags. Deer may be taken during the archery season only with archery equipment specified in Section 354 as follows:

(2) B Zones.

(A) Zones B-1 through B-3, B-5 and B-6.

1. Area: As described in subsection 360(a)(2)(A).

2. Season: The archery deer season in Zones B-1 through B-3, B-5 and B-6 shall open on the third Saturday in August and extend for 23 consecutive days.

3. Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(c) Archery Hunting with Archery Only Tags. Deer may be taken only with archery equipment specified in Section 354, during the archery seasons and general seasons as follows:

(1) Number of Archery Only Tags Permitted. A person may obtain an archery only tag using a one-deer tag application and a second archery only tag using a second deer tag application.

(2) Zones in Which Archery Only Tags are Valid. An archery only tag is valid for hunt G-10, and during the archery season and general season in all zones except C-1 through C-4 and X-1 through X-12.

(3) Areas: As described in subsections 360(a) and (c).

(4) Seasons: The archery season and general seasons are provided in subsection 361(a) above and in subsections 360(a) and (c).

(5) Bag and Possession Limit: All bag and possession limits per zone are the same as those described in subsections 360(a) and (c).

(d) Hunting Area Limitations. Archers not in possession of an archery only tag may hunt only in the zone, zones, or areas for which they have a general tag or an area-specific archery tag. (Refer to subsection 361(c)(2) for zones in which archery only tags are valid).

(e) Crossbow Prohibition. Except as provided in subsection 354(j), crossbows may not be used during any archery season or during the general season when using an archery only tag.

\*\*\*\* GOOD LUCK! \*\*\*\*
